Pump Technology

Since more than 50 years the company WITA is developing and producing high quality products for heating systems in Germany. Our quality management is certified according to DIN EN ISO 9001: 2008.

Through uncompromising high quality standards, coupled with multiple application possibilities of our pumps, we are able to offer optimal solutions for the almost usages.

The high efficiency WITA - Pumps are usable in the areas of heating, domestic hot water and solar technology. Every day, the research and development department is working on new innovative solutions to facilitate the daily life for the skilled crafts also in the future.

Product Advantage

- Maximum efficiency due to ECM - Technology
- Integrated motor protection
- Varied range of applications because of the cataphoresis coated grey cast iron pump housings
- WITA - High efficiency pump motors are backwards compatible to the most previous series

Economics

Due to the constantly increasing energy costs and the enormous consumption of the uncontrolled 3 stage pumps, a replacement by a highly efficient circulating pump is absolutely recommended.

Depending on the purchase and installation costs, the WITA high-efficiency pump already pays off after 2-3 years due to the power savings.

Pump cross section

Rotor shaft

- Made of high quality ceramics
- very low manufacturing tolerances
- high fitting accuracy
- very good dimensional stability during temperature changes
- low wastage

Separating can with permanent magnet rotor

- Separating can is made of stainless steel
- very low manufacturing tolerances
- Ceramic bearing with very low wastage
- High-quality permanent magnet rotor made of Ferro or Neodyn

Technical Data

Max. pump lift	4.0 m 6.0 m
Max. flow rate	2.600 l/h 3.200 l/h
Power consumption	3 - 23 W 3 - 38 W
Control	3 constant characteristics, 4 proportional characteristics, night mode, anti-block function
Supply voltage	1 x 230V, 50 Hz
Motor protection	No external motor protection required
IP rating	IP 42
Ambient temperature	0 °C to +40 °C
Media temperature	+5 °C to +110 °C
Temperature class	TF 110 as per CEN 335-2-51
Max. system pressure	10 bar
Connection size	DN 15, DN 20, DN 25, DN 32
Installation lengths	110 mm, 130 mm, 180 mm
Pump housing material	130 mm, 180 mm variant in grey cast iron cataphoresis coated; 110 mm, 130 mm variant in brass
Weight incl. insulation	2.5 kg
EEI	≤ 0.20

Max. pump lift	7.5 m
Max. flow rate	6.500 l/h
Power consumption	122 - 172 W
Supply voltage	1x 230V, 50 Hz
Motor protection	No external motor protection required
Ip rating	IP 42
Ambient temperature	0 °C to +40 °C
Media temperature	+5 °C to +110 °C
Temperature class	TF 110 as per CEN 335-2-51
Max. system pressure	10 bar
Connection size	DN, 25, DN 32
Installation lengths	130 mm, 180 mm
Pump housing material	variant in grey cast iron, cataphoresis coated
Weight incl. insulation	3.9 kg

Characteristic WITA U 75

* available only outside the EU
