

## ML6420A/ML6425A,B

### Electric Linear Valve Actuators

#### SPECIFICATION DATA

ML6420

ML6425

#### APPLICATION

The ML6420A / ML6425A,B actuators enable floating control, and are suitable for use in conjunction with ON/OFF or floating single-pole, double-throw (SPDT) control outputs. They can operate Honeywell's standard valves in heating, ventilation, and air conditioning (HVAC) applications.

#### FEATURES

- Quick and easy installation
- No separate linkage required
- No adjustments
- Low power consumption
- Force-limiting end switches
- Spring-return models
- Manual operator
- Models for low and line voltage
- Synchronous motor
- Corrosion-resistant design
- Maintenance-free
- Actuator-valve combinations approved according to DIN 14597 available

#### SPECIFICATIONS

##### Temperature Limits

Ambient operating limits	-10...+50 °C at 5...95% RH
Ambient storage limits	-40...+70 °C at 5...95% RH
Medium valve temperature	see section "Models" on pg. 2; 220 °C with High-Temperature Kit (see section "Accessories" on pg. 5)

##### Protection

Protection standard	IP54 per DIN 40050
Insulation	Class II per DIN EN60730
Flame retardant as per	UL 94-V0 (with metal cable gland – not supplied)
Operating mode	Type 2B as per EN 60730-1

##### Wiring

Wiring terminals	1.5 mm <sup>2</sup>
Cable entry	M20x1.5 and two additional knock-outs M16x1.5 and M20x1.5

##### Weight

Non-spring return type	1.3 kg
Spring return type	2.4 kg

##### Material

Cover	ABS-FR
Base	glass fiber reinforced plastic
Yoke	aluminum diecast

##### Dimensions

See Fig. 1 on page 4

## MODELS

\* When equipped with the High-Temp. Kit (see section "High-Temperature Kit" on pg. 5), all actuators are suitable for medium valve temperatures of up to 220 °C.

\*\*Depending upon the given combination of valves and actuators, see tables below.

### Medium temp. < 130 °C (DIN Certificate 1F139/13)

valve	dimensions	with actuators
V5016A (PN16)	15-80 mm	ML6425A3006 ML6425A3014
V5025A (PN25)		
V5328A (PN16)	15-50 mm	
V5049A (PN25/40)		

### Medium temp. < 150 °C (not DIN-certified)

valve	dimensions	with actuators
V5016A (PN16)	15-80 mm	ML6425A3006 ML6425A3014
V5025A (PN25)		
V5328A (PN16)		
V5049A (PN25/40)		

## OPERATION

### General

The drive of a synchronous motor is converted into linear motion of the actuator stem by using a spur gear transmission. The actuator stem is connected with the valve stem by a button keyed retainer connection.

An integrated spring package limits the stem force to a factory-adjusted value in either direction.

Installed microswitches switch off the actuator precisely when the specified stem force is reached.

### Manual Operation

Actuators without spring return are equipped with a manual operator used in case of power failure. Manual operation is possible only after the power supply has been switched off or disconnected.

To operate, push the manual operator knob down and turn clockwise to move the stem downward and counterclockwise to move the stem upward. If the actuator returns to automatic control, the manual operator knob unlocks automatically.

In the case of actuators with spring return, the manual operator is located under the cover.

### Spring Return

The ML6425A,B spring return actuators provide a defined safety position of the valve in case of power failure.

The spring return actuators are shipped from the factory with a shipment stop (to lock the knob) in order to allow connection of the stem button retainer to the valve stem without power supply.

### Electrical Installation

The actuators are delivered with a pre-installed cable gland M20x1.5 and two additional knock-outs for M16x1.5 and M20x1.5.

**CLOSE-OFF PRESSURE RATINGS in kPa**

## ACCESSORIES

### Auxiliary Switches

The actuators can be equipped on site with an auxiliary switch unit consisting of two switches. Their switching points are adjustable over the full length of the actuator stroke. The switches can be used to switch pumps or provide remote indication of any stroke position. A cable gland M20x1.5 is delivered with the unit.

Part number: 43191680 – 005.

Fig. 4. Auxiliary switches

### Auxiliary Potentiometers

Auxiliary potentiometers are available for mounting on site. They can be used as feedback potentiometer and/or to provide remote indication of the valve position. A cable gland M20x1.5 is delivered with the unit.

Part number: 43191679 - 011 (10 kΩ)

Part number: 43191679 - 012 (220 Ω)

Fig. 5. Auxiliary potentiometer

### High-Temperature Kit

(for applications >150 °C and < 220 °C medium temperature)

order number High-Temp. Kit	valve	DN
43196000-001	V5011R/V5011S	15 – 50
	V5013R/V5013E	15 – 50
	V5328A/V5329A	15 – 32
43196000-002	V5328A/V5329A	40 – 80
	V5049A	15 – 65
	V5016/V5025/V5050A	15 – 80
