### PE TANK WITH VALVE FOR RADIATOR PURGE REF 5411712000

---

#### PURPOSE

This product is made to collect water or water spray when bleeding a radiator easily and safely.

#### DESCRIPTION

Provided with a wing-shaped knob, made of PVC with a 5mm square-shaped metal shaft, designed to perfectly fit the head of the bleeder screw.

#### CHARACTERISTICS

Weight: 44gr

Measures 155x58x40

Body color: opaque white

Handle Color: Blue

Capacity 120ml

It has a 4mm hole in its upper part to facilitate total emptying once its use is finished.

#### ADVANTAGES

- It provides easy and safe radiator bleeding.
- Also ideal for radiators with difficult access to the bleeder.
- It prevents accidental splashes of water from the circuit, both on floors and walls and on the user.
- It fits bleeders with 5mm square head bolts.
- Easy emptying after use.
